VAISHNAVI B SHETTY

Aspiring Software Engineer / AI-ML Engineer

vaishnavibshetty29@gmail.com ☎ +91 9113957116 linkedin.com/in/vaishnavi-b-shetty vaishetty56.github.io/portfolio

PROFESSIONAL SUMMARY

B.E. graduate (Artificial Intelligence & Machine Learning, CGPA 8.2/10) with a software engineering foundation in object-oriented design, data structures & algorithms, and testing/debugging. Built and shipped working applications end-to-end in Python across two internships and three independent projects, including API integration, Linux deployment, and version-controlled, Agile team workflows. Seeking a Software Engineer role to apply strong problem-solving and coding fundamentals to large-scale, customer-facing systems.

EDUCATION

Bangalore Institute of Technology **2026**
B.E. in Artificial Intelligence & Machine Learning | CGPA: 8.2 / 10.0

Christ Junior College **2022**
Class XII: 96.4%

Christ School **2020**
Class X: 98.80%

TECHNICAL SKILLS

Languages: Python, Java (fundamentals), SQL

CS Fundamentals: Object-Oriented Programming, Data Structures & Algorithms, Complexity Analysis, Software Design & Documentation

Software Engineering Practice: Testing & Debugging, Unit/Integration Testing, Version Control (Git/GitHub), Code Review & Pull Requests, Agile/Scrum

Libraries & Tools: Scikit-learn, OpenCV, TF-IDF, Cosine Similarity, MongoDB, Google Workspace

EXPERIENCE

AI Intern — Vishwa Jagran Manav Sewa Sangh Charitable Trust (via Internshala) **Apr 2026 – Jun 2026**
Remote

- Built and deployed a voice-enabled assistant (speech-to-text + text-to-speech via the ElevenLabs API) for an old age home, handling environment setup, API integration, and debugging end-to-end.
- Applied prompt-engineering techniques to convert text into structured pictorial narratives, and researched workflow-automation patterns for reuse in productivity tooling.

AI Intern — LearnersByte (Mahaprabha Tech Career Hub LLP) **Jan 2026 – May 2026**
Online | AICTE-Approved Bharat Unnati AI Fellowship Program

- Implemented workflow-automation pipelines using n8n and JSON-based configuration across guided engineering projects.
- Designed and documented technical solutions for applied use cases (engagement monitoring, fact-checking, onboarding automation), strengthening requirements-to-implementation and documentation skills.

PROJECTS

RAG Document Q&A Platform **Python, Gemini API, Vector Search, RAG**

- Built a RAG system where users upload PDFs and ask questions answered by Gemini over vector-search retrieval.
- Grounded answers in retrieved passages, with citations linking back to the source document.

CareerIQ — AI Resume & ATS Optimization Platform **Python, Streamlit, NLP, Plotly**

- Built an NLP-based resume analysis platform in Python to score resume-to-job-description compatibility.
- Designed interactive Streamlit/Plotly dashboards to surface ATS scores and keyword gaps.

Blockchain-Based Document Verification System **Solidity, Smart Contracts**

- Developed Solidity smart contracts implementing decentralized verification logic for tamper-resistant document authentication, removing dependence on a central authority.
- Published the project as a research paper in IJARIIT (International Journal of Advance Research, Ideas and Innovations in Technology).

OPEN-SOURCE CONTRIBUTIONS

Open-Source Contributor — Target Strelka **October 2026**
PR #593 | Go, JSON, Unit Testing

- Investigated and fixed a Go event-processing bug that could cause stale scan results (“scan” and “iocs”) to leak between events.
- Implemented fresh-map JSON decoding in normal event processing and cached-event replay paths.
- Added regression tests covering stale-field carryover, request metadata attachment, and invalid JSON handling.

CERTIFICATIONS

- Quantitative Research Virtual Experience — JPMorgan Chase & Co. (Forage): statistical analysis, data modeling, hypothesis testing
- Python Programming — Infosys Springboard: core Python, data structures, OOP, scripting
- Foundations of Project Management — Google (Coursera): Agile methodologies, sprint planning, stakeholder communication
